

„Fabryka Gier I Zabaw II”

„Fabryka Gier I Zabaw II” it is a youth exchange project with the main aim European integration and how to spend our free time in creative way. The idea is to gather youngsters from Poland, Hungary, Slovakia and Romania to show them a possibility or ideas how to spend their free time using the international games. As we know the games have big influence on us, because we develop our memory, concentration, reflex, perceptiveness, imagination and also it is good to link contacts with other youngsters from foreign country. That is why we would like to show how the youngsters can use their free time by playing in different games: logistic games, board games, outdoor games, card games, integration games, team-building etc. We would like also to gather a big meeting of young people from different countries and give them an opportunity to use this field as a way of integration, getting acquainted with different cultures using the different games as a big chance of intercultural learning. Each participant will be able to take advantage of known games in their local community, show them to friends. The project will use working methods of non-formal education.

Main aims:

- ✓ Intercultural education

You are going to be accommodated in 2 or 4 people in rooms. We will have 3 floors for us, so we will do it in the best way (I hope so) Unfortunately there is no bathroom in the rooms, there are one in the end of each corridor (2 showers and 2 toilets). But we can do it :D The city is located around 70km from Gdańsk.

Soon I will send more info and some pictures about this place ;)

Things what you need to prepare:

- Games (outdoor games, board games, sports, etc.) – you favourite, which you or your parents play
- Energizers, integration games
- National Evening – it's your choice what you want to do and how you want to present
- Positive energy and good mood ;)
