

## ***"Young Craftsmen in Action"***

"*Young Craftsmen in Action*" is international youth exchange in which the main theme is the handicraft activities. The project will bring together young people from Romania, Slovakia, Hungary, Turkey and Poland. During the workshop the young people will learn different techniques and methods of handicraft such as: decoupage, quilling, scrapbooking, jewellery making, decorating firing by which you can hand-carry unique items. Participants also prepared some items which will be connected with their country, traditions etc. Skills acquired during the project will be able to use in the future. One of the elements of the project will organize a workshop with a professional counsellor. For a summary of the project activities will be organized an exhibition of works that were created during the project and opened workshop with selected methods for local community. It will be also promotion of the project and Erasmus + Programme.
