HELP - Healthy Environment, Less Pollution

Campina, ROMANIA
9th to 20th of November 2018

Dear partners and leaders,

Before starting the preparation stage, please keep in mind the following:

1. **Start the selection of 6 participants regarding the participant's profile of this project (local youth, age between 18 to 25 years old) - at least 2 participants with less opportunity should be part of the group.**
2. **We kindly ask each partner to send "list of participants" not later than 22nd of October 2018.**
3. **Add/ask participants to join our FB group to have a better communication and to start to know each other before we will meet at the project:**
<https://www.facebook.com/groups/277685846200419/>
4. **Please promote the project on social networks, your website or any other online support and send us the link, print-screen or scan of that information.**

Dear participants,

We are glad to welcome all of you soon to our country for the **youth exchange** that will be held in **Campina, Romania** under **Erasmus+ Programm**. This is one of the many youth projects that we are organizing and we are trying to do all our best to have a wonderful stay with useful activities for all of you.

Please **READ THIS INFOPACK** because here you can find important things about activities, reimbursement and what you should prepare in advance.

Each country will be represented by a team of 6 participants and 1 leader.

Short description and aims of the project

The aim of the project is to promote and implement a selective waste collection and management system to reduce uncontrolled landfill, raise awareness among communities and local communities about selective collection and recycling of waste and improve the capacity of stakeholders and partners to contribute to environmental protection.

The youth exchange takes place between 9 November (arrival day) and 20 November (departure day) 2018 in Campina, Romania, to promote the link between active citizenship and environmental protection through selective waste collection and reuse systems. The youth exchange will bring together 30 young people aged 18-25 from 5 countries (Romania, Poland, Bulgaria, Estonia and Slovakia) for 10 days.

The competencies we intend to acquire participants in this mobility are not directly related to a particular field, being multidisciplinary. The methods used are based on non-formal education and will make the transition from the information received to the transmitted information, with emphasis on the process of learning and awareness of the acquired competencies.

Methodology

The methodology will include communication-based methods (interaction, dialogue, open discussions), activity based methods (sharing experience, practice and experimentation), socially focused methods (partnerships, teamwork, networking) and self-directing methods (creativity, discovery, responsibility, action).

What should you know about the location?
